

SKIFT SLED

A frame chair in a compact design. Seat and backrest are separate, which gives freedom to choose materials. The distance between seat and backrest provides an open design and practical cleaning. All upholstered details have a frame made of environmentally friendly molded wood, which provides a long service life. The armrests are high enough for maximum comfort but low enough to be able to slide the chair under most table tops.

Tested according to EN16139:2013

Sled base in black metal.
Seat and back in polstered moulded wood.
Upholstery in our wide range of fabric or leather.
