

HALF A HUT

Half a Hut - a perfect small sound absorbing house that can be used for several purposes: as an individual workstation, a small meeting room or as relax areas combined with the The Hut Sofa. The house’s simple and straight lines are inspired by the classic game Monopoly and its game pieces that gives a timeless shape to the popular and practical activity based office. Half a Hut is as the name suggests - half as big as the popular house The Hut. Designed by Workspace and realized and manufactured by Götessons.
