

ENVIRONMENTAL POLICY

For Götessons Industri AB, having high ambitions for the environmental work is a given and therefore thus taking social responsibility for our impact on the environment. We intend to give people a better workplace and work environment with our products, without causing any negative environmental effects. For us to make the most use, work and measures should focus on the areas where the greatest impact can be achieved.

Götessons will:

- Constantly work to protect the environment and prevent pollution.
- Reduce the amount of waste and the consumption of energy, water, chemicals and natural resources.
- Comply with applicable laws, regulations, and other binding requirements of stakeholders.
- Carry out product and business development that are in line with sustainable development.
- Place environmental demands on suppliers and business partners.
- Constantly improve our environmental performance, the management system, our operations and the way we do business.
