THE HUT COLLECTION has expanded its product range and now offers the choice of front screens for The Hut and Half a Hut. To fulfill the needs of complete privacy for meetings or working spaces, add a glass door to your Hut. Keep your eyes open for more news in this exciting range!

OFFICE NAP is a fun addition to the office! Filled with EPP bullets, it's where you want to take a nap or have a casual meeting. Office Nap was launched in 2017 and was an immediate success on the market.

PEAK DESIGN BOOTH is new this year and provides a dynamic detail to open office landscapes with its tilted floor screens. The booth permits great options for privacy and encourages creative collaboration with colleagues.

THE LIGHTNING comes as a floor or desktop LED lamp with uplight and downlight options. Adjust the brightness in three steps with separate touch buttons for the perfect setting.

THE RISING is the flexible screen option for any great co-working space where you easily adjust the height by pulling it up to your requested level. Need to air an idea? Push it down to connect with your colleagues.
